RESPONSE TO NOTICE TO FILE CORRECTED APPLICATION

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The Notice dated March 11, 2008 stated that a filing date for the referenced application has been granted. The Notice however states that the application is informal for failure to comply with the regulations. The Notice states that a substitute specification is required, as the specification is not properly spaced.

Substitute Specification

Pursuant to 37 CFR 1.125, the applicant in response submits herewith a substitute specification. The substitute specification is the same as the specification originally filed on January 22, 2004, but in compliance with 37 CFR 1.52 and particularly, with proper spacing pursuant to 37 CFR 1.52(b). The applicant states that the substitute specification contains no new matter. 37 CFR 1.125(b).

Marked-Up Copy And Clean Copy

37 CFR 1.125(c) requires supplying the substitute specification with markings showing changes relative to the immediate prior version of the specification of record.

It is believed the immediate prior version of the specification of record is the application as filed, because the attempted amendments filed November 21, 2005; April 21, 2006; September 6, 2006; and December 26, 2007 fail to comply with the requirements for amendments pursuant to 37 CFR 1.121.

The substitute specification filed herewith does not include these attempted amendments. Accordingly, no marked-up copy or clean copy required by 37 CFR 1.125(c) is believed necessary.

Preliminary Amendment

Concurrently filed is a preliminary amendment amending to informalities in the claims.

Extension Of Time To Respond

Concurrently filed is a petition for an extension of time to respond.

Summary

It is believed that the present Response, the substitute specification, Preliminary Amendment and Extension of Time, responds fully to requirements set forth in the Notice To File Corrected Application dated March 11, 2008.

Respectfully submitted,

/carl m davis ii/
